

James Davies

Snoopy Pets

Having worked in Outdoor media with Clear Channel for over 30 years, holding various positions throughout the company's brands and working on various projects in both the UK and Internationally.

Jim moved to the UAE in 2007 to work on new and groundbreaking projects and to develop start up businesses. Having led the development of the world's first Air-Conditioned bus shelter project in Dubai and then later in Abu Dhabi, he also set up business units and warehouses in Qatar while working on projects in Bahrain, Qatar, Oman and the UAE.

In 2013, along with his wife, Lindsey, who was then managing the company, they purchased Snoopy Pets.

The following 6 years has seen them develop and establish Snoopy Pets to be the biggest Pet Relocation company in the UAE whilst continuing its double digit growth.

During this period, Snoopy Pets has steadily and in line with its development plan continued to grow and develop. In 2015 they opened its own Kennels and cattery and incorporated a full grooming salon in to the business alongside its already successful Pet Relocation and Pet Taxi services.

In 2017 Jim was voted on to the IPATA board of Directors and appointed Regional Director for the MENA region.

2018 saw a busy year for Jim and Snoopy Pets, with the awarding and partnership with Emirate Airlines for their Emirates Pets scheme.

We also acquired one of Dubai's largest dog daycare and boarding facilities, which will allow Snoopy to improve further its service offering to both its clients and fellow agents.

The year was ended with the receipt of 3 UAE Middle East Awards Best, Best Pet Care service provider, Best Pet Taxi & best Dog Daycare Facility.
