

Learn more about CEIV Live Animals and how your organization can benefit

Tuesday, August 27th with 2 sessions offered

Following the recent signature of a Memorandum of Understanding (MoU) between the ATA and IATA this free webinar will put into action both organizations' collaborative intent to further awareness of the CEIV Live Animal program within the industry.

Handling and transporting live animals is challenging and complex. Ensuring that standards and best practices are in place around the world to protect the welfare of these animals when they travel is a key priority for IATA and ATA. CEIV Live Animals is a standardized global certification program designed to help achieve this.

During the webinar we will introduce the CEIV Live Animals program and feature the experience of companies that have completed the certification, such as regulators and freight forwarders .

Session #1 ([click for live registration link](#))

- 4 – 5:00 am New York, US
- 10 – 11:00 am Belgium
- 6 – 7:00 pm Australia
