MEMBER INPUT needed!

ATA has been contributing to the development of simple handling protocols for ground handlers / animal caretakers. Currently, horses, dogs and cats have been written but your expertise for pigs, exotics, insects and poultry are needed.

If you have knowledge which could assist in the remaining species above, please inquire directly to [Robin Turner](#).

ATA is also refreshing its [FACT SHEETS](#) posted under RESOURCES. Please visit and provide your input on the current *Equine, Lab Animals, Zoological* and *Pets/Companion Animals* sheets.

Your participation is appreciated!
