

Steven Kreuser, AS, SRS, SRA, RLatg

Pfizer, Inc., Worldwide Comparative Medicine
Groton, Ct

Steve is the Global Lead for Small Animal Surgery and Outsourced Models at Pfizer. He specializes in, and is responsible for the development and delivery of high quality rodent surgical models. He provides support to global research partners who seek assistance with the development and refinement of animal models in both large and small animal surgery. These duties also include managing the use of outsourced surgical models and collaboration with vendors of surgically altered animals.

Steve is certified as a Surgical Research Specialist and Surgical Research Anesthetist through the Academy of Surgical Research. Steve is also an AALAS Registered Laboratory Animal Technologist. Steve received his AS from Colorado Technical College. His robust knowledge and experience comes from exposure in various fields of veterinary medicine ranging from academia to pharmaceutical industry over the past 30 years.

Outside of Pfizer, Steve is an active American Kennel Club Hunt Test and Field Trial Judge. He is very active with his dogs in field trials, hunt tests and dog shows.
